Dear Alex,

Wow! You sure touched a chord speaking about bullying to the Pride Business Network October 21. It's a powerful issue for the LGBT community. Many people said they were impressed with your presentation and really identified with the cases you described.

We appreciated learning about your web initiative to combat bullying and the bystander behaviour that supports it. Unfortunately, time was too short! We hope you'll come back some time and tell us more about how Champions Against Bullying is helping our communities.

Sincerely,

Sue Pimento
President
